VS

Thomas Carroll Warden of D.C.C

Jane Brady Attorney General for the State of Delaware

Civil Act NO. 04-888-JJF

FILED

U.S. DISTRICT COURT
DISTRICT OF DELAWARE

This letter is for the Hon. Judge Joseph Farnen JR.
in the Above Caption Case Number.

I am not Submitting any Arguments or Citing Cases
or MAKING a Claim in this letter, I Just Want to
ask the Presiding Judge over this Case a Question.
In July 2004, I filed a Habeas Corpus in this
Honorable Court and Several Days later I filed a
Memorandum in Support of my Habeas Corpus,
in October 2004 the State Responded as to why my
Habeas Corpus Motion should fail, I Requested
to be Appointed Counsel when I filed my motion
in July 2004 my Request was Denied without
Prejudice on March 16th 2005. I also Requested
and Added my Medical Condition to my Habeas Corpus
which was Denied in December 2004 because the
Court stated that Medical is not Cognizable in
federal Habeas Proceedings. as of May 2005
my Habeas Corpus and Memorandum to Support
my Habeas Corpus will be currently Active
in this Court 10 months now. I've been told by
the Law Library Paralegal at D.C.C. that she
longer my motion stays before the Court
the Better for me. the Paralegal also stated

that "if my Habeas Corpus Motion did not have merits this Honorable Court would have denied my motion earlier in the proceedings. I don't know how the Courts Ruling procedure is in a Habeas Corpus proceeding or why it takes long to be decided. But I have been incarcerated since August 16th 2002 to a total of 4 years for a technical violation of probation for missed probation appointments and past dirty urine, as of this month of May 2005 I will now have 10 months left of level 5 incarceration followed by 6 months level 4 Plummer Center. I was praying that my motion had a meritable argument know matter how big or small so I could just have some relief. I would be satisfied with just getting relief from ^{not} having to serve the additional one year sentence under

CRA No VN99090642 - that starts May 12th 2005. My mother just retired from Christusa Care in July 2004 after working 37 years. Her home needs repairs and her health is not a hundred percent. Neither is mine because I suffer from a "medical illness called Ulcerative Colitis. I experience Rectal Bleeding - severe Abdominal Crampings - and Rectal Pain that the Department of Corrections just started giving me the ^{Rectal} Medication I've been fighting for for 3 years - they gave it to me on Sunday Feb 6th 2005, at D.C.C.. Judge Farnan - I wrote Superior Court Judge
